Hays County Guardian
aka- **μKind Radio San Marcos 105.9FM**
(or as pronounced Microkind Radio San Marcos)
P.O. Box 305
San Marcos, Texas 78667

Federal Communication Commission
1270 Fairfield Rd.
Gettysburg, Pa.

17325-7245

Howdy again Folks,

Sorry to be writing ya'll so much but we heard from our informant that there was a bid for our radio station going out and all bids need to be sent in by the end of the month. Now come on why didn't ya'll tell us about this so we don't miss the deadline? Boy Howdy ya'll are really trying to push our buttons and turn our knobs and it's gettin' us madder then a wet hen!!

Now lets just slow down here one minute and put these here things in perspective. First if you need a bid then we bid our sovereignty as a city to the United States of America and the great Constitution that formed this here country. We believe that the air waves are for the peoples of this here country and that selling our rights as American Citizen to the highest bidder excludes us poor folk from participating in this here democracy. So we feel if you can sell our station for profit over freedom of speech, due process and the rest of the Constitution that you are undermining this great country that many of us put our life on the line to defend. We don't mind people making money, just don't sell our rights, the White House, the Constitution or our only means to communicate to our community since you sold all the licenses for San Marcos to other cities and we have no way to communicate to each other or announce city disasters, local news, public announcements or other such stuff.

Second, please inform us of all the stuff you are doing trying to undermine our rights, freedoms and liberties givin to us under the Constitution of the United States of America. I just can't believe ya'll are so naive to believe you can exclude us from the due process we deserve.

Third we have already asked for a waiver and this is more then due since we don't cross no state lines and we are out of your jurisdiction, but if you put a federal station over our state station then by golly your have gone too far and violated our states rights.

So include our bid of sovereignty in your process and then tell the other people it didn't work out and you can't violate our rights, so 105.9 FM is for San Marcos and is a community access station that is non-commercial, not- for -profit and open to all.

In Freedom of Speech and Liberty for all,

Jeffrey "Zeal" Stefanoff

Joe Ptak

- more and more μ Kind programmers are being harassed and busted by the law enforcement agencies. This week Hector, Bret and Adam were busted on charges that freedom of speech had happened. The police say that Hector confessed on the air that he had Tagged a wall, so the cops busted his house looking for spray paint, paper, pencils, and pens; also confiscated were books and a bit of pot seeds that were sterile and sold at a feed store. Programmers, be careful about what you joke about on the air. They think Hector is the famous **uni-tagger**. [ed note: tagging is graffiti] This was part of a National Federal Crackdown on alleged graffiti artists- Hector the ringleader- the cave graffiti in France is the first proof that man separated from an animal to a sentient being, now you are put in jail for it. Today is like Nazi Germany 1942. The police said that Judge Howard Warner sent his regards to those busted and said that freedom was only for the rich and if you weren't going to be poor and his servant then he was going to run us out of town. Remember he was the one who during World War II worked for Hitler, then after the war worked for Stalin.

- Joe Gaddy is still in jail and Judge Warner still hasn't put a bond on him.. He told Joe he could "languish" in jail. See ya' soon Joe, from all the μ Kind programmers, "We'll be there soon!"

-Still no reports of alien landings in Hays County
-thanks to Chris for all the computer help- he can fix your Mac if you need help- call Zeal for the #

-It has been suggested, and there is a challenge out there to prove it wrong, that μ Kind Radio is the single longest Civil Disobedience, with the most amount of people, that has gone on in history.

- do a show before it is too late
- the hippies can't be the only one smoking all the pot that is smuggled into the U.S. of A.

- the FCC is having secret meetings with rich folk to sell our station to the wealthy- μ Kind has filed formal complaints with the FCC for violating due process for not including μ Kind in on the meetings and all information about those meetings has been requested under the Freedom of Information Act of 1974

- OK programmers you asked for it, we need it and here is how it is:

1. there must be a Club μ Kind Member in the studio at all times
2. only members can do shows/operate equipment
3. a \$5.00 membership dues will be assessed each month- due between the 20th and the end of the month. After the end of the month all non- paid shows will be canceled-starting January 20th, 1998 all moneys collected will go into a Joint Account requiring two signatures for money withdrawn. The money will be used for badly needed equipment and electric bills. Thanks for the idea and offer programmers. These kinds of selfless acts are what has made μ Kind Radio what it is today. The biggest radio station in San Marcos!!! or as Big Rob would shout, "Big Kind Radiolll!"

You know your a μ KIND Junkie when-

- you find yourself wondering what ever happened to Dana from Nacaogdoches and his petition
- you feel guilty for not writing down all those μ Kind Junkie jokes and getting them to the studio
- you miss these stupid jokes

Letters and Words and maybe a few Numbers to the Editor are generally appreciated. All letters might be edited. Send letters and donations to: Hays County Guardian, P.O. Box 305, San Marcos, Texas 78666

Cops Shoot Disabled Men's Dog
Thursday night Police and a SWAT Team opened fire on Ben and PK during a pot bust and ended up killing their dog. They searched their house for over two hours only to find pot. There is certainly a push to destroy the hippie culture here in San Marcos. These two gentlemen are disabled and definitely no threat to society or themselves, this needs to stop. The cops are gunning for cripples because they are too scared to go after real criminals. They can't catch bank robbers so they go after victimless and helplessly disabled people. We need reform of the marijuana laws and now!!! I'm hoppin' mad!!! Was not this country founded on tolerance of other peoples views and beliefs? This harassment is based on intolerance of a culture view.

- it appears that someone of authority is prompting the SM Police to arrest and harass programmers from μ Kind Radio - well no programmer has quit because of the harassment nor has requests for shows slowed down - I guess the people of San Marcos enjoy freedom of speech just like our Founding Fathers did, except this time the women are involved - don't authority figures go to school or learn from history so it doesn't repeat itself. Regardless of the police state that is spreading through our once fair country, San Marcos will resist with the most powerful weapon- THE HUMAN VOICE and freedom of speech.

- Joe Gaddy is out but missing, Look out S.M.!!!
- the City of San Marcos should receive the stupidest city council award. I know you have heard it before but this is too important to not run into the ground. After all the drought and threat to the springs the city council convinced the locals to pay for water from Canyon Lake to be piped to San Marcos to drink, yet instead of leaving the aquifer water alone they want to sell it to factories so they can move here to pollute our air and we in return get to drink the water from Canyon Lake that has motor boat gas and pee in it. We really need to do something about this situation. How 'bout a protest and then get everyone registered to vote and throw the university controlled city council out of office. Stop the pro-business anti-citizen city council now before we dry up like Big Springs and end up drinking our own pee!!!!

- in just a few weeks, March 26, μ Kind Radio will be one year old, hard to believe huh? Well it is true and there we be many festivities in the upcoming weeks to celebrate. Starting February 1998 there will be the First Annual Ozcar Awards
